

Zachary NaPier, M.D.

Zachary NaPier, M.D. is a board certified, fellowship trained orthopedic spine surgeon. He is an expert in minimally invasive surgical techniques that result in faster recovery and less pain after surgery.

Medical School:

- [George Washington University](#)
Washington, DC

Orthopedic Surgery Residency:

- [Cedars Sinai Medical Center](#)
Los Angeles, CA

Spine Surgery Fellowship:

- [Harvard University: Massachusetts General Hospital and Brigham and Women's Hospital](#), Boston, MA

Dr. NaPier has extensive training and experience with cutting edge minimally invasive and motion preserving surgical techniques that create less postoperative pain, decreased soft tissue injury and blood loss, and faster recovery times. He is also skilled in complex reconstruction of spinal deformities, degenerative conditions, and failed back syndrome. His practice involves comprehensive clinical and surgical care of adult and adolescent patients.

Dr. NaPier has a specific expertise in prone transposas lateral interbody fusion (PTP LIF) and has presented and published his techniques in addition to teaching other surgeons. He is also a prolific researcher, having authored or co-authored many clinical and basic science manuscripts, presentations, and textbook chapters in addition to receiving grants from organizations including the Cervical Spine Research Society and Scoliosis Research Society.

"I am honored by the trust you place in me and my recommendations for your care will be the same that I would make for a member of my own family."
